ELECTRICITY IN THE FAMILY.
Electricity is so readily utilized, whenever it is available, that it is becoming a servant in the affairs of daily life in so many different ways and so insidiously that many people are scarcely aware of its practical

uses in their own affairs.

It is in its application to the operation of the family sewing machine that the familiar use of electricity is made practical in the home. The cost in the family of operating a sewing machine by foot power is not measured by dollars, but by the expendi-ture of the vitality for which it calls, and whatever of this cost can be saved is as desirable, in fact, more important than a money saving. For this purpose the DIEHL ELECTRIC BALANCE-WHEEL MOTOR is unique in being the only one than can be applied directly to the driving shaft of the machine, taking the place of the balance wheel.

It is as easily handled as the ordinary

incandescent lamp and its consumption of the electric current is the same, costing about 1 cent per hour. This motor can be seen in practical operation every day at THE SINGER MANUFACTURING COM-PANY'S shop, No. 616 9th st. n.w., where all sewing machine users are cordially invited to call and examine it

THE NATIONAL GUARD

Proposed Interstate Drill at St. Paul Next July.

LITTLE ROCK ALSO IN THE FIELD

Gen. Albert Ordway Will Soon Return to Washington.

PRESENTATION OF PRIZES

city that arrangements are in progress for an interstate competitive drill and national military encampment to be held at St. Paul, Minn., next July. The proposition originated with Captain Ed. S. Bean, commanding Company B of St. Paul, who became widely known last summer through the medium of his protest, filed against the Morton Cadets at the drill at San Antonio, Tex. The citizens of St. Paul, it is reported, are giving the proposition hearty support, and the idea is to offer cash prizes aggregating \$8,500.

It is anticipated that a large number of companies will compete in the drill, the St. Paul people expecting the Thurston Rifles and Omaha Guard of Omaha, the Branch Guards of St. Louis, the Neeley Zouaves of Memphis, the Hale Zouaves of

Zouaves of Memphis, the Hale Zouaves of Kansas City, the Governor's Guard of Austin, the Belknap Rifles of San Antonio, the Sealy Rifles of Galveston, and the National Fencibles of this city.

"We can assure every one of one thing," Captain Bean is quoted as saying, "and that is the decisions of the coming drill will be rendered in a perfectly square and honest manner. The judges will be officers of the United States army, and will be appointed by the War Department. No one, not even the officers of the drill association, will know who they are until they report for duty. They will draw up the program for the drill to show the efficiency of the companies. There will be no the program for the drill to show the efficiency of the companies. There will be no 'catches' in the program, everything will be carried out in a fair and square manner, and the drilling will not be for the purpose of seeing which commander is the best at guessing riddles, but which company is the most efficient."

What is Said in Omaha. In connection with the proposed drill at

St. Paul the following statement emanates from the far west, being published at Omaha, Neb.:

"The Morton Cadets of Washington hav decided never to enter another competitive drill. This decision is based on what they consider the unfair treatment they received at San Antonio. It is possible that the Mortons may reconsider their decision in time to be competitors on the St. Paul field."

From present indication it does not seem possible that the Morton Cadets will participate in the proposed drill at St. Paul or in any other interstate competition for some years to come. It is quite likely, however, that the National Fencibles will again ever, that the National Fencibles will again return to the drill field to engage in friend-ly battle for glory and cash, and if they do the Galveston cup will return to the na-tional capital, or Captain Domer will know the reason why, providing, of course, that it is possible to secure the placing of the championship trophy in competition out-side of the state of Texas. As heretofore stated in The Star, it was an open boast stated in The Star, it was an open boast at San Antonio last July that the cup would never again leave the borders of the lone star state under any circumstances. Capt. Charles S. Domer, commanding the National Fencibles, who visited St. Paul in 1884, with the National Rifles of this city, when the Rifles engaged in competition there with Captain Bean's command, speaks very favorably of the prospects of the drill, and says that the section about St. Paul is a good one to draw from and to attract

Little Rock in the Field.

It has also been learned during the past few days that an interstate competitive Little Rock, Ark. This information is furnished by a Mr. Whipple, father of Durrant Whipple, a well-known member of the drill team of the McCarthy Light Guard of Little Rock, who recently visited Washington. Mr. Whipple says that steps are being taken to hold a drill in Little Rock that will outrank any enterprise of a similar character held in recent years. It will be remembered that a drill was held at Little Rock in July, 1894, at which the National Fencibles carried off the championship of the United States for the second time. It was there also that Thomas Arthur Tom drill team, was crushed to death by a switch engine the day following the an-nouncement of the judges. It was under-stood that the Little Rock drill was a financial failure, and therefore the announce-ment that another drill is contemplated in the city of roses is somewhat of a surprise. It is probable that a reorganization of the Morton Cadets will occur in the near future. The intention is to have the affairs of the organization looked after hereafter

Gen. Ordway Homeward Bound. Word has been received at headquarters that Brigadier General Albert Ordway, ommanding the District of Columbia militia, will return to this city about the 20th instant. Directly beneath the foregoing, in a single line and in letters six feet in height, will be the following quotation: "For a people who are free and propose to remain so, a well-organized militia is a to remain so, a well-organized militia is a

Presentation of Prizes. Unless something unforeseen should occur to prevent the distribution of prizes to the winners of the matches at the recent meet of the National Rifle Association will be made next Wednesday evening. It is the intention to have an appropriate assembly in Convention Hall and formally present the prizes to the winners.

The fact that orders have been issued for an assembly, drill, dress parade and review of the 2d Regiment Monday evening in Convention Hall may perhaps interfere with the arrangements for Wednesday evening on the ground that it may not be feasible to order out the commands both Monday and Wednesday evenings. The matter has not yet been finally decided. The National Guard Band will participate in the 2d Regiment assembly Monday evening. meet of the National Rifle Association will
